27 Apr 1964 - SecDef notified DCI of establishment of Defense Special Missile and Astronautics Center (D/SMAC) for central control of DOD collection facilities and production of departmental analyses of missile and space events.

He also suggested establishment of a DOD/CIA management coordination group.

Gen. Carter
Mr. McGone replied on 8 June welcoming the establishment of SMAC as a central point where FMSAC could establish liaison. He disagreed on set up of another committee and said he would rather use GMAIC of USIB unless it proved unable to cope.
